GENERATORI DI CORRENTE

18 gen

I generatori di corrente trasformano l'energia meccanica in energia elettrica

alternata no prende il none di alternatore continua

ALTERNATORE: IV - p. 74-75-76

form = lo sence t

LA DINAMO: p. 76-77

$$\frac{\dot{T}}{Sen 2\pi f t} = 0$$
Ande $a \dot{T} = 0 \implies effectio Joule

Providere = $I^2R = I^2R \implies 2\pi f t$

$$I^2 = \frac{1}{2} \implies 2\pi f t = I^2 \implies 2\pi f t$$
Ande $a \dot{T} = 0 \implies effectio Joule$

$$I^2 = \frac{1}{2} \implies 2\pi f t = I^2 \implies 2\pi f t$$
Ande $a \dot{T} = 0 \implies 2\pi f t$

Ande $a \dot{T} = 0 \implies 2\pi f t$

Ande $a \dot{T} = 0 \implies 2\pi f t$

Ande $a \dot{T} = 0 \implies 2\pi f t$

Ande $a \dot{T} = 0 \implies 2\pi f t$

Ande $a \dot{T} = 0 \implies 2\pi f t$

Ande $a \dot{T} = 0 \implies 2\pi f t$

Ande $a \dot{T} = 0 \implies 2\pi f t$

Ande $a \dot{T} = 0 \implies 2\pi f t$

Ande $a \dot{T} = 0 \implies 2\pi f t$

Ande $a \dot{T} = 0 \implies 2\pi f t$

Ande $a \dot{T} = 0 \implies 2\pi f t$

Ande $a \dot{T} = 0 \implies 2\pi f t$

Ande $a \dot{T} = 0 \implies 2\pi f t$

Ande $a \dot{T} = 0 \implies 2\pi f t$

Ande $a \dot{T} = 0 \implies 2\pi f t$

Ande $a \dot{T} = 0 \implies 2\pi f t$

Ande $a \dot{T} = 0 \implies 2\pi f t$

Ande $a \dot{T} = 0 \implies 2\pi f t$

Ande $a \dot{T} = 0 \implies 2\pi f t$

Ande $a \dot{T} = 0 \implies 2\pi f t$

Ande $a \dot{T} = 0 \implies 2\pi f t$

Ande $a \dot{T} = 0 \implies 2\pi f t$

Ande $a \dot{T} = 0 \implies 2\pi f t$

Ande $a \dot{T} = 0 \implies 2\pi f t$

Ande $a \dot{T} = 0 \implies 2\pi f t$

Ande $a \dot{T} = 0 \implies 2\pi f t$

Ande $a \dot{T} = 0 \implies 2\pi f t$

Ande $a \dot{T} = 0 \implies 2\pi f t$

Ande $a \dot{T} = 0 \implies 2\pi f t$

Ande $a \dot{T} = 0 \implies 2\pi f t$

Ande $a \dot{T} = 0 \implies 2\pi f t$

Ande $a \dot{T} = 0 \implies 2\pi f t$

Ande $a \dot{T} = 0 \implies 2\pi f t$

Ande $a \dot{T} = 0 \implies 2\pi f t$

Ande $a \dot{T} = 0 \implies 2\pi f t$

Ande $a \dot{T} = 0 \implies 2\pi f t$

Ande $a \dot{T} = 0 \implies 2\pi f t$

Ande $a \dot{T} = 0 \implies 2\pi f t$

Ande $a \dot{T} = 0 \implies 2\pi f t$

Ande $a \dot{T} = 0 \implies 2\pi f t$

Ande $a \dot{T} = 0 \implies 2\pi f t$

Ande $a \dot{T} = 0 \implies 2\pi f t$

Ande $a \dot{T} = 0 \implies 2\pi f t$

Ande $a \dot{T} = 0 \implies 2\pi f t$

Ande $a \dot{T} = 0 \implies 2\pi f t$

Ande $a \dot{T} = 0 \implies 2\pi f t$

Ande $a \dot{T} = 0 \implies 2\pi f t$

Ande $a \dot{T} = 0 \implies 2\pi f t$

Ande $a \dot{T} = 0 \implies 2\pi f t$

Ande $a \dot{T} = 0 \implies 2\pi f t$

Ande $a \dot{T} = 0 \implies 2\pi f t$

Ande $a \dot{T} = 0 \implies 2\pi f t$

Ande $a \dot{T} = 0 \implies 2\pi f t$

Ande $a \dot{T} = 0 \implies 2\pi f t$

Ande $a \dot{T} = 0 \implies 2\pi f t$

Ande $a \dot{T} = 0 \implies 2\pi f t$

Ande $a \dot{T} = 0 \implies 2\pi f t$

Ande $a \dot{T} = 0 \implies 2\pi f t$

Ande $a \dot{T} = 0 \implies 2\pi f t$

Ande $a \dot{T} = 0 \implies 2\pi f t$

Ande $a \dot{T} = 0 \implies 2\pi f t$

Ande $a \dot{T} = 0 \implies 2\pi f t$

Ande $a \dot{T} = 0 \implies 2\pi f t$

Ande $a \dot{T} = 0 \implies 2\pi f t$

Ande$
